CRIMINOLOGY PROFESSOR, DR. SUSAN REID BRINGS IN-CLASS LEARNING TO LIFE BY ENGAGING HER STUDENTS IN SOCIAL ACTION PROJECTS LIKE GATHERING BOOKS FOR INCARCERATED YOUTH AND PARTNERSHIPS WITH THE FREDERICTON POLICE FORCE

### CUSTODY: YOUTH V. ADULT

What factors influence a person's decision to enter the criminal justice system? Is it a choice, or is it a result of circumstances beyond their control? How does the legal system treat youth versus adults? What are the implications of a criminal record for a young person's future?

1. A person's decision to enter the criminal justice system is often a result of a combination of factors, including social, economic, and cultural influences. It is not always a choice, but rather a result of circumstances beyond their control.

2. The legal system treats youth and adults differently, with youth often receiving more lenient treatment and support.

3. A criminal record can have significant implications for a young person's future, including their ability to find employment and housing.

4. The criminal justice system is often criticized for being too punitive and for not addressing the underlying causes of crime.

5. There is a need for more support and resources for young people who are at risk of entering the criminal justice system.

6. The criminal justice system is a complex and often confusing process, and it is important for young people to understand their rights and options.

7. The criminal justice system is a system of control and punishment, and it is important for young people to understand the consequences of their actions.

8. The criminal justice system is a system of power and control, and it is important for young people to understand the role of the state in their lives.

9. The criminal justice system is a system of social control, and it is important for young people to understand the role of the state in their lives.

10. The criminal justice system is a system of social control, and it is important for young people to understand the role of the state in their lives.

## BACHELOR OF ARTS

### MAJOR

Your degree will start to take shape once you declare your major at the end of your second year. Your major is the area you will focus on and the subject in which you will take the greatest number of courses. It is possible to major in more than one subject.

More than half of our students graduate with more than one major.

### MINOR

If you have a secondary area of interest, you may consider a minor in the subject. A minor consists of several courses in a specific area, but not as many as a major.

### HONOURS

If you're particularly interested in a field of study and are considering graduate school following your Bachelor of Arts, you will want to consider applying to an honours program in your upper years. Completing an honours program demands a greater number of courses in a subject—including advanced-level courses—and often a thesis is required.

## AQUINAS: FIRST-YEAR GREAT BOOKS PROGRAM

### OPTIONAL ONE-YEAR PROGRAM FOR FIRST-YEAR STUDENTS
