- Arts and Science

## SPRING AND SUMMER CLASSES

Many new students elect to begin their studies early by choosing to take classes during the spring or summer. Spring and summer students enjoy flexible class options lasting a couple of weeks to a couple months, and choose to start early for a number of reasons, including:

- getting a head start on your degree program,
- focusing on a tough class you want to get out of the way, or
- completing a prerequisite class you need to move forward in your degree.

Interested? Choose the 2022 Spring Term (May–June) or 2022 Summer Term (July–August) when applying for admission for applicable colleges. To learn more visit [summer.usask.ca](https://summer.usask.ca) or contact our friendly staff at [admissions@usask.ca](mailto:admissions@usask.ca).

If you are an Engineering or Education student and considering enrolling in spring and summer classes, talk to an academic advisor in your college first to seek approval.
